ESSAY

Each applicant is expected to submit an original 3-5 page essay from among the following topics; any sources you quote must be cited.

1. Medical care has changed a great deal over the past few decades, from physicians who once made house calls, to highly sophisticated, technologically advanced diagnosis and treatment. Reflect about the advantages and disadvantages of these changes. How do you think medical care can be improved in the future?

2. Identify some of the most important problems the American health care system faces. To what extent do you think the legislation recently passed by Congress will address these problems? What kind of health care system do you favor?

3. Discuss the book that has had the greatest impact on your life or way of thinking. How has this book influenced you?

4. What song(s) would you include on the soundtrack of your life?

6. Who is the person you would most want to model your career after? Why is this person your professional role model?

For Integrated Undergraduate/Health Science Honors Track applicants only:

REFLECTIVE PAPER

Applicants to the Health Science Honors Track must submit a 3-5 page reflective paper of their volunteer experience in their field of interest. In your essay,

a. Compare and contrast any preconceived notions about what you thought it would be like to volunteer in your placement to what it was actually like; how might this comparison assist you in your journey to becoming a member of your chosen field?

b. Critically appraise what you observed during your placement; what did you like or not like about what you observed?

c. Relate your personal strengths and limitations to what you observed in the facility where you volunteered; what characteristics would make you a good practitioner?

A letter documenting your volunteer hours must be submitted on stationary from the Director of Volunteers or a Licensed Professional at the Institution at which you did your volunteer hours.
